Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Regarding claim 1, the prior art does not teach or render obvious an image forming apparatus comprising a jam processing control section, when detecting occurrence of a jam, ceases transportation of a sheet recording medium in a jam by a transfer carrier as a first stage to make it possible to remove a sheet recording medium in a jam, and, if a second sheet recording medium in transit when a jam occurs is detected by a transfer carrier, advances to a second stage and restarts transportation of a second sheet recording medium in transit using a transfer carrier so that a transport distance thereof corresponds to a printing ratio of an image formed on a second sheet recording medium.

Regarding claim 9, the prior art does not teach or render obvious an image forming apparatus a jam processing control section for detecting occurrence of a jam on a sheet recording medium during an image forming process to process a sheet recording medium in a jam, wherein a jam processing control section, when detecting occurrence of a jam, ceases transportation of a sheet recording medium in a jam by a transfer carrier after a recording medium is transported by a transfer carrier by a distance corresponding to a printing ratio of an image formed on a sheet recording medium as a first stage to thereby make it possible to remove a sheet recording medium in a jam, and if a second sheet recording medium in transit when a jam occurs is detected by a transfer carrier, advances to a second stage to transport a second sheet recording medium in transit using a transfer carrier for a predetermined time

and to thereafter stop it.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
